was where she could not see the whole of the Borden yard, but she was sure that if anybedy had entered the yard she would have heard Capt. Mayer of the engineer corps and a pro-

day before the tragedy Lizzie was in his store and asked him for 10 cents' worth of prussic acid to put on a sealskin sack or cape, but he told her he could not sell it without a physician's prescription. His attention was called to the fact that she was in the store on Thursday evening and soon after that again at about 6 collects. In his store on a sealskin sack or cape, but he crime. The duel was the outcome of the anti-senitic campaign conducted by Edouard Drumont, editor of the Libre Parcie, an anarchist raper. Capt. Mayer was a Hebrew and the Marquis de thought he sold something to Lizzie about six years ago and he knew her by sight quite well, Borden; had never talked about it with George Gray; had told three persons of her being there. In his redirect examination he said that he never had a call for prussic acid before, and mentioned to Dr. Dutra that Miss Borden had come to his place. He had heard her speak since that morning and recognized the voice; heard her at the house when he went up in company with an officer. She was in the kitchen alone with the officer, and he stood at the door. He said that Mr. Harrington, the officer, asked her about somebody who had been around there and she said she had not seen anybody. She was standing near the door then. He calld not say whether it was the voice he heard six years ago, but it was the voice of the woman

caused Dagonet's weight to be announced as 112 pounds, instead of 122, forced the executive committee to declare off all bets after booking had been in progress ten minutes. This nullified all of the plunger's bets made in the city and counter to wait on her; heard her say, "Prussic acid," and him say, "Can't sell it without a license," and then heard her say, "Sealskin cape." Then she went out. Cross-examined, he said: "I am positive that she said cape, and not 'sack," and she spoke loud enough for me to hear. She spoke out loud, but I did not observe any tremulousness. I could not say so to serve any tremulousness. I could not say a to what her wearing apparel was. It might have

sestified that he was behind the counter the morning when Mi-s Borden came in: it was between 10 and 11 a.m. Hart corroborated the testimony of Kilcoy in regard to the pressic actd incident, and then identified Miss Borden as the person who had asked for the stuff. He had never seen Miss Borden to know her until he saw her in the court room and had his attention called to her by the district attorney, and that was the first time he had seen her since that Lizzie came into the store she wore a dark as; she had a cape on her arm and a purse in edges of the cape.
POLICEMAN DOBERTY.

markable about them, except one ax had a very short handle to it. He could not tell whether that had a claw on it or not. Going back to the appearance of those in the house, witness said he had not remarked anything in

witness said he had not remarked anything in the way of her appearance.

Michael Mulially, police officer, testified mainly corroborative of the preceding witness.

Lizzie had told him that she had seen a man about the yard that morning and that he was dressed in dark clothes. He said he gave the ax to Dr. Dolan, but he could see no blood on

arents. Lizzie had no idea how he deed was done or by whom, but she had heard a man at the door about 9 o'clock that morning talking with her father: the man talked like an Englishman, but she had not seen him and did not know who he was. About two weeks before which had been dispensed with since the death nan, but she had not seen min and the most seen min and the most seen min and the was. About two weeks before that a man had some words with her father relative to a store. Fleet said "Maggie," the work girl, was in the house all the time, or about the house, but that Lizzie did not think she heard anything about it. She told her that she had been in the barn for some time—half an hour—and came back to find the murders had been committed. He asked her later manned the respective of the different men-of-war were manned, the vessels were covered with flags and streamers from stem to stern and their bands played the national anthem.

was her father's room, and that the door was always locked. If he wanted to get in he could g particularly on the excited condition of said. When he came to Lizzie's room she said to g particularly on the excited condition of him: "There is not any use going in there, for nobody can get a chance to put, anything in these. I always lock my room door when I am

leaving it."
At no time, Fleet said, was Lizzie in tears.

brown and even as violet.

"The latter color was so extraordinary that I endeavored to make that portion of the planet appear to my eyes of some other color, but it was impossible, and no other color but violet lake could be made to match it. This color upon the planet has been only seen by me once since. The brown color above noted was undoubtedly due to bad seeing. At one time I feit convinced that the real color of the darkest

north to be well seen. The fourth and third regions of the planet are both uninteresting. Since then four men, under the direction of the planet are both uninteresting. The second position is interesting as showing the great southern ocean, which is nearly as conspicuous as the Syrtis major itself.

"We now come to a curious feature of the observations, namely, the actual change in color which, eliminating all probable sources of error, the planet really seems to undergo. When the Syrtis major is central, before the autumnal equinox of the northern hemisphere, the region to the east is seen to be more greenish than that to the west. As the season wears on the difference in color grows less marked, and the greenish hue is confined more closely to the region immediately bordering the Syrtis are not on the east. The two arms of Syrtis are not conspicuous as the Syrtis are not in the second position is interesting as showing the power of the mines and oils to be proticed by the Consolidated stock exchange, one of the mines and oils to be proticed by the Consolidated stock exchange, one of the steamship lines provided by them and a grand electrical car showing the progress and tons of molten iron was situated twenty feet from the will be carried in the streamship lines provided by them and a grand electrical car showing the progress and tons of molten iron was situated twenty feet in the stream of the streamship lines provided by the Consolidated stock exchange, one of the mines and oils to be proticed by the Consolidated stock exchange, one of the steamship lines provided by them and a grand electrical car showing the progress and tons of molten iron was situated twenty feet from the stream of the stock exchange, one of the steamship lines provided by the Consolidated stock exchange, one of the steamship lines provided by the Consolidated stock exchange, one of the steamship lines provided by the Consolidated stock exchange, one of the steamship lines provided by the constitution of the steamship lines provided by the Consolidated stock exchange, one of the steamship lines provided by the Consolidated s of equal breadth, the eastern arm being nearly twice as wide as the western arm. Early in 1890 the entire region inclosed between the arms of the Syrtis major, as far as the snowcap, was of a brilliant green color. Eleven days before the vernal equinox of the southern hemisphere a yellow spot appeared at the extreme northern point of the triangular area. As the season advanced this yellow spot increased in area till it

covered the whole region as far south as could be seen. This year when first observed this area was entirely green, but on May 9, or seventeen days before the vernal equinox, the yellow The Rio Grande to Be Dammed.

A company has been incorporated under the lore at the time she came in—Mr. Kilroy, Mr. fart and another. He had never said to smysnown but was decidedly fainter than the ocean, which was again suspected of being blue, but the color could not be satisfactorily confirmed. The crescent now is too far north, owing to the motion of the planet, to be satisfactorily studied."

Prof. Dishesian

Prof. Pickering continues that he believes that in the future some time these changes will be thoroughly understood and laws be deduced affecting them. He thinks the greatest danger

lies from optical illusion. MANY MATCHES ARRANGED.
